Semillas Fitó

Company details

Semillas Fitó is a **Spanish multinational** that was founded in 1880 in Sant Martí de Provençals, Barcelona. Over the last **130 years** it has turned from a small family seed company to one of the biggest multinationals in the field of genetic improvements and the production and distribution of seeds for horticultural and field crops.

Semillas Fitó has not only managed to grow, but also to tackle the challenge of **internationalization**.

Nowadays, 65% of its turnover corresponds to exports, with sales in more than **70 countries**. Today, Fitó is a benchmark in the **Mediterranean and South American** markets and has 8 own subsidiaries, as well as **representants in more than 10 other countries**. Some of their centres have their own offices, research centres and testing laboratories, as well as collaboration agreements with hundreds of farmers, in the quest to improve and adapt every seed to every region and climate.

Ecoembes

Company details

Ecoembes is a non-profit public limited company whose corporate objects include the design and organization of an Integrated Management System (SIG) for the selective collection and recovery of packaging waste for subsequent treatment, recycling and upgrading.

Ecoembes was incorporated in 1996. Since then, more than 12,000 companies have joined the SIG. Its shareholders include 57 companies and groups comprising all of the sectors which participate in the management of packaging, from manufacturers and packagers to distributors, manufacturers of raw materials and recyclers.

In 1998, when Ecoembes started to operate, household packaging recovery and recycling rates were 5% and, 16 years later, more than 70%. This data have enabled our country in 15 points exceed the objectives set by the European Union in the field of recycling of packaging (55%).

In 2017 Ecoembes opened The Circular Lab, an open innovation center focused on the pioneering circular economy in Europe
